

Teambuilding program

There is an offer of ten teambuilding proposals ranging from mindfulness to archeologic excavations that will be sent to applicants. Every participant can choose three afternoon activities (one is set for everybody and that is a visit to Orvieto's cultural beauties) that are covered by the workshop participation fee. They will be offered on the afternoons of Tuesday, Wednesday and Thursday. As soon as you will apply for the workshop you'll be sent the list of ten items. You pick your three favourites. The activities will be offered if at least three people vote for them.

This offer stems from **Emilio Galli Zugaro's** commitment to the Etruscan area. This is a wonderful piece of land in today's Latium, Tuscany and Umbria, in Central Italy, shaped by almost 3,000 years of civilization, art and culture. Emilio wants to foster intelligent and sustainable tourism to the area. This is why his *Academy of Communicative Leadership* is offering its workshops in Orvieto. Scholars from all over the world with skills and experiences in different areas of Communicative Leadership will be offering an increasing amount of workshops, ideally over the four seasons (by 2023). In 2016 and 2017 they are offered in the summers. With this Emilio wants to give a little contribution to the growth of this area. This is also why throughout the workshop the culinary offer will be in keeping with the principles of sustainable farming using mostly products of the region.
